Тема: Manage Microsoft Entra ID Identities

Виконав: Прокутко В.В
Група ІПЗ-43
Дата: 12 грудня 2025
Викладач: Поварчук Д.Д

Івано-Франківськ – 2025

Task 1: Create and configure user accounts

In this task, you will create and configure user accounts. User accounts will store user data such as name, department, location, and contact information.

Task 2: Create groups and add members

In this task, you create a group account. Group accounts can include user accounts or devices. These are two basic ways members are assigned to groups: Statically and Dynamically. Static groups require administrators to add and remove members manually. Dynamic groups update automatically based on the properties of a user account or device. For example, job title.
